

Care of Your iPad

The iPad that is checked out to you will be the iPad you will use while you are a student at Loganville High School. Because you get the same iPad each year, it is going to be important that you take good care of it. Below are some helpful hints for the maintenance of your iPad. For additional information and help with your iPad, go to www.wcpsmart.weebly.com.

iPad Cases and Covers:

- Always keep a case on your iPad.
- You can purchase your own case. If you do end up using your own case, you will need to need to bring it by the LHS Media Center for approval. If the case is approved, you will need to return the county issued case to the LHS Media Center.
- If you want additional protection of your iPad, you can put a clear protector cover over the screen to hopefully prevent scratches.

Cleaning:

- Unplug all cables and turn off iPad (press and hold the Sleep/Wake button, and then slide the onscreen slider).
- Use only a soft, lint-free cloth (microfiber is best). Avoid getting moisture in openings. Don't use window cleaners, household cleaners, aerosol sprays, solvents, alcohol, ammonia, or abrasives to clean iPad.

Charging and battery life:

- Make sure your iPad is charged every day for school.
- Go through one charge cycle per month. To do this, charge the iPad to 100% and then run it completely out.
- For more information for extending the lifespan of your battery, go to <http://www.apple.com/batteries/ipad.html>.

Other helpful hints:

- Do not loan your device, charger, cords or any other device related items.
- Do not leave the device in vehicle.
- Do not leave your device unattended.
- Do not eat or drink while using the device or have food or drinks in close proximity to the device.
- Do not allow pets near your device.
- Do not place the device in floor or in sitting area such as couches or chairs.
- Do not leave the device near table or desk edges.
- Do not stack objects on top of your device.
- Do not leave the device outside or use near water such as a pool.
- Do not check the device as luggage at the airport.
- Devices must remain in system or student provided case at all times.
- Devices should be securely stored and not in use when walking in the hall.
- Keep sharp objects away from the iPad, including pens and pencils.
- Do not touch the iPad screen with any object except for your finger or iPad stylus. Make sure your hands are clean and use only fingertips with a light touch on the screen. If you are using a stylus, make sure you are using the rubber end on the iPad screen.
- Make sure you install the latest iPad software updates when they become available.
- For your apps to work properly and to help with battery life, periodically close the apps that are processing in the background (<http://wcpSMART.weebly.com/restarting-apps.html>).
