

## iPad Tip # 6

### **Basic Tip:** Safari - Bookmarks & Favorites

There are a few ways to save links to your favorite websites. You can add a Bookmark or a Favorite.

1. On the page you want to bookmark, tap the Share button  and select the Bookmark icon.
2. Change the Bookmark title if needed.
3. Tap on "Location" and either choose a folder to place the Bookmark in or select Favorites.
4. Tap "Save".

By placing it in Favorites, the Bookmark will show on the toolbar.

### **Advanced Tip:** Safari - Creating a webclip:

A webclip looks like an app and takes you to a website.

1. In Safari, go to a website that you often visit.
2. Tap the Share button .
3. Select "Add to Home Screen".
4. A webclip icon will appear.

5. Edit the page title if necessary and tap the "Add" button.
6. Next time you want to visit that website, just tap the webclip icon on your home screen. It will take you to that site.
